1. Tablet Layout

1.1. Power Key:

Press and hold this key to turn on/off the mobile phone; in standby state, press this key to turn on/off the screen.

1.2. Menu Key:

Press this key to open the action list, so that you can execute the action in current interface or menu.

1.3. Home Key:

Press this key to return to the home page from any application or interface.

1.4. Back Key:

Press this key to return to previous interface, or close the dialog box, menu, notification panel or the screen keypad.

1.5 Side Key:

Presione este botón para ajustar el volumen.

2. INSTALLATION METHOD AND PRECAUTIONS OF SIM CARD

2.1. Método de Instalación y cuidados de la tarjeta SIM:

By setting PIN (personal identification number) code of the SIM card, you can protect your SIM card from illegal operation.

2.2. Installing SIM card:

Please turn off the mobile phone first, take out the battery, and insert the SIM card into the slot as shown in the picture below; then, place the battery into the battery jar and install the battery cover.

2.3. SIM card codes:

By setting PIN (personal identification number) code of the SIM card, you can protect your SIM card from illegal operation.

- If the PIN code is enabled, you need to enter the valid PIN code when you turn on the mobile phone.
- If you input wrong code for three times continuously, your SIM card will be locked and you need to input PUK code.

△Nota: *Your network service provider will set a standard PIN code (4-8 digits) for your SIM card. Please change it with your private password as soon as you get the phone.*

2.4 Connecting to network.

When the SIM card is decrypted, the mobile phone will search registered network or available local network automatically. Once connected, the logo of the network operator appears in the top of the screen, the mobile phone is in standby state, and you can make or answer calls.

Please contact your network operator if the SIM card has a failure.

2.5 Precautions of SIM card:

- · Put the SIM card out of children's reach.
- · Please use, insert and remove the SIM card carefully because the SIM card and its contacts are prone to be scratched or damaged by bending.
- · Do not expose the SIM card to electrostatic, dusty or moist environment.

2.6 Operation and installation methods of SD card.

SD card is a removable mobile memory card inside the mobile phone and used for extending the storage space of the mobile phone.

3. BATTERY AND CHARGING METHODS

1. Connect the charger to provided USB cable.
2. Connect the charger plug to the power outlet.
3. Connect the USB cable to the mobile phone; this icon  indicates the charging status.
4. The battery is fully charged when the status icon changes to ; please disconnect the charger.
5. Disconnect the charger from the mobile phone.

⚠Nota: *If the battery isn't used for a long time or the battery is used up, the mobile phone may be not turned on normally while charging. It is normal. Please charge for a while before turning on the mobile phone.*

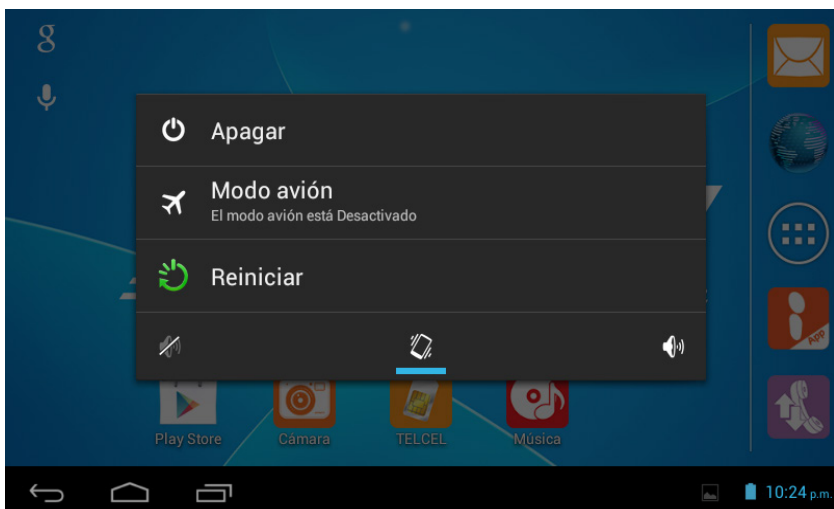

The battery can be charged repeatedly; however, it is consumable product, please change a new battery if the standby duration reduces significantly.

The data service consumes more power and will reduce the standby duration.

The charging time changes according to temperature and battery usage.

The mobile phone will show prompt if the battery is too low. The mobile phone will power off automatically if battery level drops too low.

4. UNLOCKING MODE

Responsable de la Garantía

COMERCIALIZADORA MILENIO, S.A. DE C.V.

Calle Juan Salvador Agraz No. 65 oficina 22 A y B,

Col. Santa Fe Cuajimalpa, Del. Cuajimalpa de Morelos,

México, D.F. C.P. 05300

El aparato que usted ha recibido cuenta con una garantía de 1 año en la totalidad de las piezas; componentes del producto y mano de obra de la reparación a partir de la fecha de compra, así como gastos de transportación respectivos únicamente para el caso de que no haya un centro de servicio autorizado en su localidad.

La presente garantía será válida bajo las siguientes condiciones:

1. Para hacer efectiva la garantía, bastará presentar el producto junto con esta póliza debidamente sellada o en su defecto, el comprobante de compra en nuestro taller de servicio.
2. Comercializadora Milenio S.A. de C.V. se compromete a realizar una revisión de servicio y en su caso reparar o cambiar el artículo, si la falla es atribuible a defecto de fabricación.
3. El tiempo de reparación será máximo en 30 días a partir de la recepción del producto.

Esta garantía será nula en los siguientes casos:

- Cuando el producto se hubiese utilizado en condiciones distintas a las normales.
- Cuando el producto no hubiese sido operado de acuerdo al instructivo de uso que le acompaña.
- Cuando el producto hubiese sido alterado o reparado por personas no autorizadas por el fabricante nacional, importador o comercializador responsable respectivo.
